

The Symbolon-Reflection-Training 2022

To increase personal effectiveness and expand existing skills

In the **Symbolon-Reflection-Training**, you learn how to use reflection processes for yourself and to apply them in your entire professional and private life. By applying the Symbolon-Method®, you can refine and professionalize your reflection competence. With the certification you receive a powerful tool to work effectively and professionally in coaching and training sessions with artwork.

The **International Coach Federation** (ICF) is checking and recognizing parts of the Symbolon-Reflection-Training yearly. You will receive the defined number of Continuing Coach Education Units (CCEU) after your participation.

Target Groups

Coaches, consultants, trainers, personnel specialists, managers, project leaders.

All those ...

... who want to professionalize, strengthen and use their ability to analyse and reflect in a business context.

... who have a professional and personal interest in personality and potential development.

... who want to work with artwork and who want to be effective in the market as specialists in the field of reflection competence.

... who are open and willing to develop their self-management skills with well-founded reflection competence, to experience and reorient themselves.

1. Symbolon-Reflection-Training -

Power Dive for Leadership Brilliance

In the Symbolon-Reflection-Training you will explore and develop your inner treasures and potentials with exciting reflection dives. Whether for personal, private or professional, commercial use – expand your reflection competence with the unique Symbolon-Method®, which uses artwork, symbols and archetypes for reflection!

With newly learned techniques, concepts and tools you can influence reflection processes and lead people directly and effectively to their inner core issues and their source for new solutions, well-being and potential development.

For an effective personality and potential development, both external and internal competencies must be considered, explored and developed. Only by diving into deep levels the invisible becomes visible. In the Symbolon-Reflection-Training you will illuminate the essential contents and thus recognize your personal core issues and barriers. The application of the new knowledge brings you and your environment sustainable clarity and certainty. You inspire others to courage, strength and growth.

6. Reports from Participants

Gwendolin Stoupa, www.agyl.ch, Wichtrach (CH)

»I started the self-study of the E-Learning course today and I look back on a very exciting Sunday. It was not only fun, but I was also able to take a lot with me personally. Now I am looking forward to the further modules. I am really happy with the Reflection-Training 😊«

Mag. (FH) Andrea Maria Mayer, www.stufenzumerfolg.at, Alland (A)

»I am very happy to complete this course using E-Learning modules. This tool gives me enough time and peace of mind for self-reflection, as well as sparring with peer coaches to try out the learned methods thoroughly and comprehensively.«

Annika Gartenmann, www.aergon.ch, Zürich (CH)

»The Reflection-Training in January 2018 in Vienna was very educational and inspiring. Christine has created a family atmosphere with her affectionate and quiet presence, which has made mutual coaching easy among the participants. Coaching through reflection of individual pictures is a wonderful method for me, how to help people to become more aware of themselves with questions about a certain motive and to show them their great potential. The Symbolon Art4Reflection Session in the museum "Albertina" was my highlight, as Christine has selected strong images that brought a lot of unconsciousness to the surface, which we were able to discuss afterwards. It's great how open Christine shares her knowledge so that as many people as possible can benefit from the Symbolon-Method®. Thanks Christine!«

Gisela Sattler-Dzierza, www.sattler-dzierza-coaching.de, Nürnberg (GER)

»The Symbolon-Reflection-Training was very intense and enriching, for me personally as well as for my job as a coach! A truly brilliant and in-depth reflection method, in which Christine Kranz invited us to immerse ourselves, to shape, to experience and to understand. With her special mixture of professionalism, humor, clarity and subtle flair, she created an enabling framework in which the participants of very different colors felt welcome and added value for themselves and their respective profession. I like to use the two artworks in my coaching. The work with it is really very powerful, the language of the pictures a very own. It provides quick access to non-linguistic areas and allows more implicit speech about itself. This proves to be extremely helpful not only in the business context. Thank you for this wonderful reflection "instrument" with lasting effect!«

Pia Gruber, www.pia-gruber.at, Baden (AUT)

»The very compact short course has illuminated the topic of reflection from the most diverse angles, the Symbolon reflection methodology including the basics on which it is based conclusively and simply explained. We were able to try out and apply many things directly ourselves and received a lot of material for the practice in a well-prepared way. The whole event was characterized by a high standard and extremely appreciative atmosphere - in the best sense of the word "family style".«

Dr. Almut Hüfler, www.abfev.de, Berlin (GER)

»The four-day intensive training provided me with a good theoretical insight as well as a solid introduction to the practice of coaching with artworks using the Symbolon-Method®. As an instructor, Christine Kranz combines human generosity, attention to detail, the highest concentration of content, and linguistic precision and has created a very productive atmosphere in no time at all with this wonderful mix of carefully prepared documents that facilitate the transfer to practice in the aftermath of the training, both on a professional and a personal level these four days were one in wintery Vienna beautiful, thoroughly enriching experience - thank you!«
